# Arts and Aging

Story of the month!

Please enjoy the story and illustration below, "Platter Splatter", created by TimeSlips participants in our Arts and Aging program.

The TimeSlips program works to focus on imagination rather than memories to connect with others through creativity, including those with dementia and memory issues.

Our TimeSlips certified instructor, Johanna Buwalda, makes a visit to an assisted living facility each week. Together, they use their imaginations to envision and write a story to go along with a photo that they are shown.

Thank you to our Arts and Aging sponsor, Northwoods United Way.

## Platter Splatter

The girl is probably painting and making it look nice. This is in California and her name is Shelby. She wears a paint belt with some painting equipment. She is painting murals on the walls for an auditorium for a concert by Led Zeppelin. The guy in the back tells her that Led Zeppelin is no good so they get another band in. They get The Platters instead. It matches Shelby's style better because she likes to make splatters for The Platters.

The auditorium fills right up. The audience is all standing up and yelling "encore, encore!" The Platters are grateful and they sing another half an hour: all the songs from an old album. The audience was very happy and went home in the end.

Shelby was also happy that it all turned out. She offered to paint any other time they needed her.
